

foundations

Would you like to develop a special interest within general practice?

Would you like longer appointments with every patient, working within a small practice so that you can develop a relationship with all of your patients?

Would you like one dedicated non-clinical session every week for education and reflection?

Would you like to work within a dedicated, committed and award-winning team?

Then come and talk to us at the newly developed social inclusion general practice for Middlesbrough.

We offer 15-20 minute appointments for each consultation and the practice is closed every Thursday morning for team education and reflective practice.

We offer an extremely competitive salary and are happy to offer a secondment, salaried or partnership position or SLA with your practice.

We actively encourage innovative and progressive ways of working within General Practice and within the Social Inclusion Agenda.

We have been awarded an outstanding rating from the CQC for our care of vulnerable groups.

If you would like to chat informally about how you could be welcomed into our team please contact
