09 October 2017

Dear Stakeholder,

**Important information regarding Resolution Health Centre**

You may recall that we previously undertook a procurement exercise in November 2016 to secure a new provider for Resolution Health Centre which was unfortunately unsuccessful. Subsequently NHS South Tees Clinical Commissioning Group (CCG) agreed a 12 month contract extension with the current provider of Resolution Health Centre.

This is due to come to an end on the 31 March 2018 and the CCG has commenced a procurement process to secure a new provider to be able to offer appointments at Resolution Health Centre from 01 April 2018.

There will be no changes to the range of services that the new provider has to deliver to the registered patients of the practice.

The CCG has written to patients registered with the practice to reassure them that they will see services continue at Resolution Health Centre and **do-not** need to re-register with an alternative GP practice.

A further briefing will be issued in January 2018 following the completion of the procurement exercise.

Yours Sincerely

**Andrew McMinn**

Senior Commissioning and Delivery Manager – Primary Care  
NHS South Tees CCG
