

## Cleveland Local Medical Committee

CLMC Bulletin Tuesday 11 February 2025

### GP Collective action – Secondary care guidance

Thank you all for continuing to develop and expand on our [collective action to protect our patients and practices](#).

We recognise the particular challenges across the primary and secondary interface, and want to ensure all specialist colleagues are aware of the purpose and aims of GP Collective Action. To this end GPC England and the UK Consultants Committee have developed explanatory resources hospital and trust-based colleagues.

#### Collective action to bring about:

- Essential and overdue investment in general practice
- More GPs and more practice nurses
- Fair pay and conditions in practices
- Safe continuity of care for patients

[bma.org.uk/GPcontract](https://www.bma.org.uk/GPcontract)

Our new webpage <https://www.bma.org.uk/secondarycareGPaction> outlines how secondary care colleagues may be affected and ways they can support GPs in this campaign. This includes a downloadable PowerPoint presentation which LNCs (Local Negotiating Committees) can use in their patch, an at-a-glance fact sheet that can be displayed in Trusts, and a recorded webinar offering further insights.

Please also continue to refer to our [collective action Protect your patients, protect your practice webpage](#), which explains in more detail the [nine actions](#) that practices can choose to take. It also contains more information such as the [Safe Working Guidance Handbook](#), [Campaign resources](#) and [Patient materials](#).

As negotiations for the GP contract 2025/26 progress, this is a pivotal moment for all GPs to unite as a profession – not just for safe and sustainable general practice, but for a safe, sustainable and stronger NHS too.

### Primary care joint parliamentary event 28 January

Last week GPC England jointly hosted an MP parliamentary drop in event for MPs in Westminster. The event on the future of primary care was held jointly with the British Dental Association, Community Pharmacy England, the Optometric Fees Negotiating Committee and the Association for Primary Care Audiology Providers and was attended by over 40 MPs. These included members of the health and social care select committee and shadow health ministers. During the event we outlined key concerns related to workforce and funding and encouraged MPs to sign a joint letter to the Health Secretary calling for increased support for primary care.

## Special England LMC Conference 2025

The Special England LMC Conference will be held on **Wednesday 19 March 2025** at [Friends House](#), London. This was supported during the Conference of England LMCs held in November last year, as an opportunity to evaluate the critical state of general practice in light of any government contractual offer for 2025/26, and ahead of the Spring three-year Spending Review and the publication of the [NHS Ten Year Plan](#):

*The focus will be to discuss and determine what escalatory steps will be needed to ensure the survival of what still remains of English general practice.*

Please note that the **deadline for registration is Monday 17 February 2025** and no late requests for registration will be accepted after this date. Instructions to register have been sent to LMCs. Thank you to all LMCs who have submitted motions.

If you have any questions, please email [info.lmconference@bma.org.uk](mailto:info.lmconference@bma.org.uk).

## Help address the GP unemployment crisis

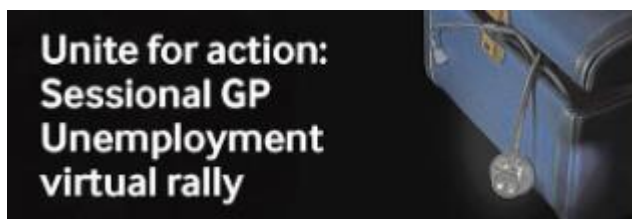

Despite the rising demand for family doctors to provide care, a Kafkaesque situation now exists in which a significant number of highly skilled GPs are struggling to secure work.

The BMA's UK Sessional GP Committee is looking for salaried and locum members to help highlight this pressing and absurd situation of the growing unemployment/underemployment crisis among GPs. Please take a few minutes to share your experiences by [completing our survey](#).

Your input is critical to understanding the full extent and impact of this crisis and to strengthen our lobbying efforts for tangible change.

[Join the sessional GPs unemployment virtual rally](#)

**Wednesday 12 February, 7.30-9pm** | We invite you to join this virtual rally and address the [urgent issue of sessional GP unemployment](#). This is your chance to be part of the campaign, share your voice, and mobilise for change.

Together, we can amplify our message and advocate for progress, plus, you can learn how the BMA is committed to supporting you and all GP colleagues.

## NHS Mandate and NHSE planning guidance - improving access to general practice

Published last week, the [UK Government's new mandate for the NHS](#) and [NHS England's planning guidance for 2025/26](#) both emphasise improving patient access to general practice and primary care. Neither document establishes clarity in terms of how this will be achieved, but the new Mandate does refer to investment in upgraded GP surgeries and in data and digital tools.

## 2023-24 type 2 pension forms for sessional GPs

We have recently highlighted the [change of form and upload process for type 2 pension forms for 2023-24](#). Sessional GPs are required to complete a Type 2 Self-Assessment for each pension year, so that NHS England can ensure that all NHS pension contributions have been correctly paid and then accurately allocated to that GP's NHS Pension Scheme record.

The relevant forms must be completed by those who have undertaken practitioner pensionable work between 1 April 2023 and 31 March 2024, and should be submitted to PCSE **by 28 February 2025**. PCSE and the BMA Pensions Committee have held two webinars to explain the new form and the process to upload the forms. [Watch a recording of the webinar](#)

## Resident Doctor dispute on exception reporting

Despite its best-efforts during negotiations, the BMA's UKRDC (UK resident doctors committee) have [announced](#) they will be entering into a dispute with the Government over the contractual reform of [exception reporting](#) (ER). The [GPRC \(GP registrars committee\)](#) met last week and passed a motion which offers their full support to UKRDC in entering a dispute to drive the negotiations to an effective resolution.
